STEFANOS DIMITRAKOPOULOS

Junior Full Stack Software Developer

Motivated Junior Software Developer with a strong foundation in Java, web technologies (HTML, CSS, SQL), and object-oriented programming (OOP). Skilled in working collaboratively within diverse teams, using problem-solving abilities to contribute to development projects. Familiar with Git, Postman and frameworks like Spring Boot, Flask and ASP .NET Core MVC. Passionate about learning new technologies and eager to build expertise in modern software development back-end/front-end practices while contributing to innovative, dynamic teams.

Contact

Address: Athens, Greece

Email: StefanosDim@outlook.com

Phone: (+30) 698-232-5739

LinkedIn: www.linkedin.com/in/dimstef/

Skills

Advanced: OOP, JAVA, SQL

Upper Intermediate: HTML, CSS

Intermediate: C#, Python

Beginner: C/C++, JavaScript

Basic: Networking Fundamentals

Familiar: Linux (Debian based), Git, Postman

Certificates

- **PeopleCert** Software Developer Skills Foundation   (*jul2021*)

- **PeopleCert** Software Developer Skills Advanced   (*oct2021*)

Languages

- **Greek**, native

- **English**, advanced

Other Information

- **Military obligations fulfilled**

Projects

Task-Tracker github.com/stefdim/Task-Tracker
A web application built with ASP .NET Core MVC that allows users to manage to-do tasks, including creating, editing, displaying and deleting tasks. Provides search by description/status functionality. Database usage for storing data. (Developed in Visual Studio)

BookingApp github.com/stefdim/BookingApp
University project featuring a TCP server, sockets, and the master-worker pattern for efficient client-server communication. The back-end is built in Java, with a front-end developed in Android Studio. The app manages bookings without a database, using in-memory data storage, demonstrating core concepts in distributed systems

Platform-Game github.com/stefdim/Platform-game
A simple platform game developed in C++ using a custom sgg library for collision handling and player movement. This project demonstrates game development fundamentals, including object handling and basic physics.

KatiTainies github.com/stefdim/KatiTainies
A Netflix-style web app built with Spring Boot, featuring a front-end developed using HTML, CSS, and JavaScript. The app allows users to browse and interact with movie content, showcasing responsive design and dynamic content handling.

Education

BSc Department of Informatics   *sep2024*
Athens University of Economics and Business   Athens, Greece

Gained a comprehensive foundation in computer science with a focus on software development, networks, operating systems, algorithms, databases, hardware architecture and mathematics. Developed a solid understanding of hardware architecture and system design while building strong problem-solving and analytical skills.

Coding Bootcamp, Software Development   *oct2021*
PeopleCert   Athens, Greece

Six-months course in software development, 500 hours of intensive programming training. Developed object oriented programming skills (JAVA), familiarity with Spring ecosystem, front-end coding (HTML, CSS) and databases (MySQL).

Work Experience

Sales Representative   *jan2023 - oct2024*
DM executive cars   Athens, Greece

- Handled vehicle transfer processes – Managed social media accounts - Sales

Office Administrator/Fitness instructor   *sep2013 – jul2022*
Athens Lions Box   Athens, Greece

- Managed website/social media content – Handle reception duties – Personal training
